

In the Claims:

Claims 17, 21 and 22 were present. Claims 17, 21 and 22 are amended.

1-16. (canceled)

17. (currently amended) A device for playing a space game being a random number generator, comprising:

game elements, consisting of meteorites and space waste, randomly moving in space outside the Earth;

a game event assessment means located on board a space vehicle and being game fields reliably separated from each other so that a condition of one field does not depend on a condition of another field, being of the same form, the same square and the same attitude, and provided with identification markers, and

a technical facility for registering a game events, defined as collisions of some game fields with one or more of said game elements, said technical facility located on board a space vehicle and comprising sensors generating signals about collisions ~~to be included into the game event occurrence data,~~ along with information about exact game field identification ~~marker~~ and means for registration of exact time of each collision;

a technical facility forming and encrypting the random numbers which comprise complex random numbers being a pair

consisting of identification marker of the game field involved in the collision and exact time of the collision;

a telemetry channel for transmitting said game event occurrence data outside the Earth to the Earth to be consequently awarded to a player for use in a space game;

a technical facility on the Earth receiving and deciphering the telemetry signal, directing the deciphered random numbers to gaming centers where they are awarded to players for use in a space game.

18. (canceled).

19. (canceled).

20. (canceled).

21. (currently amended) A method of playing a space game using the device for playing a space game of claim 17 as being a generator of random numbers, ~~according to which gamblers are provided with option to make bets on forecast in which time span and with which identified game fields the collisions of the game elements will be registered, and further following the gaming procedure of conventional roulette~~ characterized by the following steps:

establishing of the time span for the gaming sessions of the space game;

establishing of unambiguous correspondence between the
identification markers of game fields onboard the space vehicle
and game fields of roulette;

establishing of unambiguous correspondence between the
random numbers going in from space and drop out of the winning
numbers in roulette;

transferring of the roulette rules to the space game;
informing of the players about sessions of space game;
making stakes in accordance with the roulette rules;
awarding of the players with the random numbers received
from space vehicle during the game session;
appointing winners and losers in accordance with the
roulette rules;
paying off the prizes in accordance with the roulette rules.

22. (currently amended) A method of playing a space game using the device for playing a space game of claim 17 ~~as a~~
~~generator of random numbers, according to which the gamblers are~~
~~provided with option to make bets on forecast in which time span~~
~~and with which identified game fields the collisions of the game~~
~~elements will be registered, and further following the gaming~~
~~procedure of conventional lottery~~ being a generator of random
numbers, characterized by the following steps:

establishing of the time span for the gaming sessions of the
space game;

establishing of unambiguous correspondence between the
identification markers of game fields onboard the space vehicle
and game numbers of lottery;

establishing of unambiguous correspondence between the
random numbers going in from space and drop out of the winning
numbers in lottery;

transferring of the lottery rules to the space game;
informing of the players about sessions of space game;
selling of the tickets of space game to the players in
accordance with the lottery rules;

awarding of the players with the random numbers received
from space vehicle during the game session;

appointing winners and losers in accordance with the lottery
rules;

paying off the prizes in accordance with the lottery rules.
